STATE BOARD OF TRADE.

The Circular Sent Out to Prominent Men of the State.

The following circular has been issued by the Committee and sent to the citizens of the State:

Dear Sir:—At a meeting of citizens held at Reno, Nevada, November 22, 1889, it was resolved to take steps to organize a State Board of Trade. With that object in view, the following gentlemen were appointed to take such action as they deemed necessary: Francis G. Newlands, W. O. H. Martin, R. L. Fenton, Thomas Fitch, S. D. King, D. C. Wheeler, William Thompson, R. R. Bigelow, M. D. Foley and James Mayberry.

Pursuant to instructions, the Committee beg leave to address you on the subject and inform you that they have arranged for a meeting to be held at the McKissick Opera House, Reno, Nevada, on December 21, 1889, and desire the presence of all the leading men in the State, in order to make the contemplated movement a success.

You are most earnestly invited to be present and lend your aid in establishing such a Board.

Its objects are as follows:
First—To make a permanent effort to induce a reinforcement of industrial population, to bring our State from under the cloud of depression that has hung over us so long and place her where she justly belongs.

Second—To encourage the people of any section of the country to develop the resources of that section.

Third—To give information to those seeking the investment of capital.

Fourth—To give information to intending settlers.

Fifth—To collect information concerning the agricultural, mineral and other resources of the country.

Sixth—To discuss the general good of the commonwealth.

Seventh—To inaugurate movements in legislation, both State and national.

Eighth—To bring into co-operative relation the mind, muscle and capital of a community, and to give the effort to induce immigration and the resources of the State intelligent direction.

It is hoped that the leading men of the State will be present and give their views. Hon. W. H. Miller, of San Francisco, a member of the California Board of Trade, will be present and address the meeting, showing what advantage a similar organization has been to that State.

We sincerely hope you can make it convenient to be present, for we believe the movement will redound to the benefit of every industry, and we respectfully urge that if you cannot attend in person that you will join with your neighbor and see that you have a representative present.

R. R. BIGELOW, Chairman.
ALLEN O. BAIRD, Secretary.

THE PAPERS ENTITLED TO CREDIT

The Tuscarora Times-Review, which comments ably and intelligently on the silver question, has this:

We have read with considerable care and attention the proceedings of the St. Louis Silver Convention, and we will venture the assertion that there was not an idea advanced in any speech or resolution which has not appeared in some shape in the editorial columns of some paper in Nevada within the last twenty years. This we say in no disparagement of the delegates, some of whom rank among the ablest statesmen of the Nation.

We do claim, however, that the Nevada papers of the last two or three years have done more to give the public a correct view of the silver question than all the other papers of the West put together. We are fully warranted in making such assertion.

STATE BOARD OF TRADE.

The Silver State says:

The citizens of Reno are endeavoring to organize a State Board of Trade for the purpose of directing attention to the undeveloped resources of the State and otherwise benefitting the community. They ask the cordial co-operation of citizens generally and invite outpouring of land from all parts of the State to attend a meeting to be held in their city on the 21st inst.

Much good might be accomplished by such a board, and that every community may be represented on the board one or more citizens from every town or village should attend the meeting. The record indicates that the devastating frosts which have prevailed in the State, is over and that a prosperous future awaits the farmer and stockman, while the advance in the price of silver augurs well for the miner. The outlook is brighter than for some time, and an organization of energetic men, interested in the welfare of the State, can do much to attract attention to the opportunities which it offers for the profitable investment of capital.

The Senatorial fight going on in Montana brought forth a ludicrous incident on Wednesday. Sam Clover, correspondent of the Chicago Herald, is there on the field, and has sent some racy dispatches to his paper. Tom Power, candidate for United States Senator, took offense at some allusion to him, and Mr. Clover would have to get out of Helena, as the town wasn't big enough to hold both.

Clover stepped into the telegraph office and sent the following dispatch to his paper: "Send me one metallic dollar by express. I may need it in case of emergency." Tom Powers says I can't do that.

The Times-Review says:

Free coinage means disaster at par. Silver at par means twice Nevada's population in less than two years, time with a corresponding increase in the future. It means the working of five times the number of mines now being operated, and the reclamation of millions of acres of land now virtually useless for agricultural purposes. Collectively it means an era of prosperity for Nevada unrivaled in the history of any State in the Union.

Benzon, "the Juvenile Plunger," continues to attract attention in England. Last week he played bridge for large stakes and won \$30,000. One of the most conservative periodicals in London rejoices in Benzon's luck and calls him "a good fellow with lots of sense."

Governor-elect Campbell, of Ohio, is a Knight Templar, member of the Knights of Pythias, the Grand Army of the Republic and the Order of Elks. He attends the Freebody Church and is extremely charitable.

Mrs. Terry Allowed \$300 Per Month—Gone to Portugal—Various Notes.

An Opium Fiend's Dreadful Crime in St. Louis.

St. Louis, Dec. 7.—Casper Clispy, machinist, loved Mary Anson, daughter of John Anson, also a machinist. Clispy was a confirmed opium smoker, and Anson had found him visiting his daughter. This morning Clispy went to Anson's house while the family was at breakfast. Angry words passed between the men, when Clispy drew a revolver and fired at Anson, inflicting a mortal wound. He then shot his sweetheart, Mary, and her younger sister, probably fatally wounding the former and seriously injuring the latter. The murderer then placed the pistol at his own head and blew his brains out, dying in half an hour.

LATER.—Anson died at the hospital this afternoon. His youngest daughter, Agnes, cannot live through the night, while it is now stated Mary will recover.

Another Electric Death.

Special to the Journal.

New York, Dec. 7.—The deadly electric light wire claimed another victim last night. Henry Harris, a clerk at Bernhart Tallen's dry goods store, No. 675 Eighth avenue, was instantly killed while taking a showcase from the sidewalk. The accident took place at 11:15 o'clock. Harris was seen to release his hold upon the showcase and fall to the sidewalk, and when his fellow clerks rushed to his assistance they found that he was dead.

In some way the metallic framework of the showcase came into contact with an electric wire and the charge of electricity entered Harris' arm with fatal results. Harris was 22 years of age and lived at No. 359 West Forty-fifth street.

Eligible for the Senate.

Special to the Journal.

NOBLES, Dec. 7.—It is stated that J. Farrell, of San Francisco, who has been for two years developing the Cerro Blanco group of mines, nine miles from Imitis, Sonora, has just sold those properties for one million five hundred thousand dollars, half cash and half in shares of the stock; to an English Co. organized under the name of Imitis Mines Limited. James Whitman, of the London, Paris and American Bank, is to be President of the corporation.

The Mines Opened.

Special to the Journal.

BUTTE, Mont., Dec. 7.—The Anaconda and St. Lawrence mines, in which a great fire occurred two weeks ago, causing a loss of five or six lives, were opened to-day, having been hermetically closed since the fire. The miners are at work in the St. Lawrence mine removing the bulkheads between it and the Anaconda. The bodies will not be recovered before to-morrow or Monday.

He Got Half of It.

Special to the Journal.

PORTLAND, Dec. 7.—To-day in the State Court in the case of C. A. Willey, against the Portland & Willamette Valley Railroad Company, the jury brought in a verdict in favor of plaintiff for \$7,500. The suit was brought by Willey for the sum of \$15,000 for personal injuries sustained in a railway accident several months ago.

The Cronin Case.

Special to the Journal.

CHICAGO, Dec. 7.—In the Cronin case to-day, Attorney Forrest began his closing argument for the defense and made an exhaustive statement of application to circumstantial evidence. The Court adjourned before his address was finished.

The Pan-American Conference.

Boston, Dec. 7.—The squadron of revolution, which has been anchored in the harbor for the past two weeks, sailed this morning for Lisbon, Portugal.

A Broken Leg.

Special to the Journal.

NEVADA, Dec. 7.—By falling eight feet at the Eagle Mine mine John McDonald, a carpenter, broke his leg so it will have to be amputated.

A Good Appointment.

Special to the Journal.

The Battle Mountain Central Nevada says: Frank Bell, of Washoe county, formerly Warden of the State Prison and previously Division Superintendent of the W. U. Tel. Co., has been appointed United States Marshal for the district of Nevada, and has been appointed to the duties of that office. Mr. Bell has been identified with the best interests of Nevada since the early sixties, and has on previous occasions held positions of responsibility for the State, and his appointment is a fitting recognition of his ability and integrity.

The Ohio Democracy is still receiving sealed proposals for the purchase of the United States Steamship.

THE BUTTE MINES O. K. THE LOST COMET OF 1770, IN HONOR OF STANLEY.

THE CRUISE OF THE THE THETIS OFF THE ALASKAN COAST.

The American Eclipse Expedition Party All Right and Well.

Along the Coast of Alaska.

SAN FRANCISCO, Dec. 7.—The United States steamer Thetis arrived here from the Arctic to-day, having completed an eight months' cruise. The Thetis was caught in an ice pack near Point Barrow, August 18th, and narrowly escaped destruction. Captain Stockton reports that every effort was made to save the ship and that the officers and men exerted themselves to their utmost. After being fast in the ice four and a half days a slight opening was made and the ramming process was adopted and kept up until the vessel was free. Captain Stockton also reports that the vessel has traveled along the entire coast line of Alaska, and made a longer cruise than ever attempted by any other vessel in those waters in one season.

The "Lost Comet" of 1770.

Special to the Journal.

SAN FRANCISCO, Dec. 7.—Professor E. E. Barnard, of the Lick Observatory, gives information of a remarkable theoretical discovery in cometary astronomy, made by Mr. S. C. Chandler, of Cambridge, upon investigating some peculiarities in the orbit of the comet discovered last July by Mr. Brooks, and which is still under observation. Mr. Chandler found that it had made a remarkably close approach to the planet Jupiter in 1886 and that its path had then been entirely changed, the comet being thrown into its present small ellipse with a period of seven years. Stimulated by this to find out what the path of the comet was previous to 1886, he was led to the discovery that it was identical with the famous Lexell's "lost comet" of 1770.

Suit For Possession.

Special to the Journal.

CARSON, Dec. 7.—B. Dahl has brought suit against Heber Holman, Charles Cox, et al. for the possession of the North Carson mine. About a year ago Holman jumped the claim on the ground that the assessment work had not been done, and the parties have been holding it since. The mine is just above the hill from the Langtry mine, and it is claimed that the vein runs down several hundred feet to where the Langtry strike was made of \$50 in silver. Within the last few months another large vein 25 feet wide was discovered in the hill making directly towards the Coyote, and it is regarded as a continuation of the lode.

The Storms Beneficial.

Special to the Journal.

SAN FRANCISCO, Dec. 7.—Reports from over fifty points in the State show that the rainfall for the present storm has been generally heavy, but that in a majority of cases it will prove beneficial rather than injurious to most crops. The postponement of Fall plowing and seeding has proved the most annoying feature to the majority of farmers. Roads in some sections have been badly washed, and streams swollen. Stockmen are well pleased with the prospect. Some snow has fallen near Nevada, Downsville and a few other points.

A Circular to Customs Officers.

Special to the Journal.

WASHINGTON, Dec. 7.—Acting Secretary Batcheller has issued a circular to customs officers announcing that hereafter any transportation company engaged in the transportation of Chinese laborers through territory of the United States may execute such general bond of undertaking to the United States in a penal sum and with such conditions as may be fixed by the Secretary of the Treasury, and thereafter be released from the present requirement of furnishing a bond for each Chinaman in transit.

The Boston Boys Win.

Special to the Journal.

SAN FRANCISCO, Dec. 7.—The Oakland and Boston played six innings to-day with a score of 7 to 1 in favor of the Boston. The Oakland in the first half of the 7th inning made two more runs, but the game was then called on account of the rain. Mike Kelly played center field for the Boston.

A Boy Killed.

Special to the Journal.

ARIZONA, Dec. 7.—This afternoon the fourteen-year-old son of Fritz Johnson was in Holm's planing mill gathering up shavings; he stepped under a circular saw and he was killed himself up was instantly killed, the body being split almost in two.

All Well.

Special to the Journal.

WASHINGTON, Dec. 7.—The Navy Department is informed of the arrival to-day, at St. Paul, of the Loando, Africa, of the United States ship Pensacola, having on board the American eclipse expedition, and they are all well.

Case's Purchase.

RENO, Nev., Dec. 7.—J. I. Case has purchased at Edward Bain the trotting stallion, Lexington Wilkes, for \$10,000.

GREAT PREPARATIONS MAKING FOR THE EXPLORER'S RETURN.

A Grand Banquet and Other Honors in Prospect—Emin Pasha to Be Included.

Honors Await the Great Explorer.

Special to the Journal.

LONDON, Dec. 7.—Stanley will be surprised with welcome upon his arrival in England. Everybody desires to do him honor. At the next meeting of the Council of the Royal Geographical Society arrangements will be made for a banquet to Stanley. Emin Pasha will of course be included in the invitation should he come to London. A proposal will also be made at an early meeting of the Common Council of the city that Stanley be entertained at Guildhall on a date to be fixed by himself. It will be remembered that the explorer was made a freeman of the city on the eve of his departure to relieve Emin. It has already been decided that should Stanley accept the invitation of the King of Belgium and visit Brussels he will be entertained by the Burgomaster at a grand banquet, to which the delegates of the anti-slavery contest now in session, will also be invited. On the day following a gala performance will be given in his honor at the opera. Stanley will be the guest of the king during his stay in Brussels.

The cost of the Emin relief expedition will not be met by the fund which was raised by public subscription and otherwise, when the total amount collected fell something short of £22,000. Of this amount, it is said, only some £4,000 is in hand. As there yet remains the cost of the homeward journey and the salaries to be paid it will be seen that further funds will be wanted.

ELECTRIC FLASHES.

—The pier of the National Steamship Company on North river, New York, was destroyed by fire yesterday. Four men are supposed to have been burned. Loss, \$300,000.

—An unknown man stepped into a bank at Wilmington, Del., yesterday and seized and made of with a deposit containing \$30,000 in securities.

—A memorial meeting will be held in Charleston, S. C., Wednesday in respect to the memory of Jefferson Davis.

—Don Pedro has reached Lisbon, where he will remain a few days and then proceed to Paris.

—The latest news from Emin Pasha is that there are strong hopes for his recovery. His brain is now known to be uninjured and his fever is reduced.

—Henry S. Frieze, Dean of the Faculty of Literature, Science and Art at the University of Michigan, died at Ann Arbor yesterday.

—Bishop Taigg, of the diocese of Altoona, Pa., died yesterday.

A COUNTY MAP.

Something That Every Rancher and Business Man Should Have.

The Silver State says:

County Surveyor Bowen has prepared a map of Humboldt county, a copy of which should be on every ranch and in every business office. It is handsomely lithographed, 36 by 36 inches in size, and shows in colors all the lands that are taken up, as well as all surveyed lands, with section, township and range in the county. Every stream, lake, mountain and all other features, and every public road is plainly marked. This map supplies a long-felt want, and, as Mr. Bowen has spent much time and incurred considerable expense in preparing it, it is hoped that his enterprise will be rewarded by an extensive sale of the maps, which are now ready for delivery to purchasers at his office in the Court House.

Land Grabbers Disappointed.

A number of Lander county residents who located lands near Battle Mountain along the supposed line of the proposed Nevada & Idaho Railroad are disappointed in their expectation of realizing a handsome profit from the sale of their newly acquired estates, as the corps of civil engineers, surveying the route, have made some City the initial point of survey and the line its connection with that of the Central Pacific may not pass in the vicinity of the ground located by the enterprising Landholders.

Christmas Goods.

Jaques & Son have received a full line of crockery and glassware of the latest patterns, in which is included a fine assortment of Christmas goods. They also have the best line of bar goods in the State. Customers will always find Jaques junior on hand, and he will be pleased to show his wares. Remember that everything is new. No old stock to work off. Call and get prices.

California Claims by the New Boundary.

California claims by the new boundary survey most of the area of Lake Tahoe, but Nevada still has enough to tap. If California wants to keep its share of the water, let it run a dam along its boundary line through the lake and keep it from trespassing upon Nevada's territory.—Tuscarora Times-Review.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures whooping cough, soothes the inflamed throat, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is sold by all druggists throughout the world. Price 25 cents per bottle. Feb. 21-awt-ly.
